What is this product?

Type: Shares of a sub-fund of MULTI UNITS FRANCE, a UCITS (Undertaking for Collective Investment in Transferable Securities), established in the form of a SICAV.
Term: The product has a duration of 99 years. The Management Company may dissolve the product by means of liquidation or merger with another product in accordance with legal requirements.
AMF Classification ("Autorité des Marchés Financiers"): International equities

Objectives: The Fund is a passively managed index-based UCITS.
The Fund's objective is to replicate, both upwards and downwards, the performance of the MSCI ACWI IMI Water Filtered index (the "Benchmark"), denominated in US dollars (USD), while minimising the tracking error between the Fund's performance and that of the Benchmark.
The expected level of the Tracking Error under normal market conditions is indicated in the Fund prospectus.
The benchmark aims to represent the performance of securities whose activities are related to the water sector such as water distribution, utilities and the provision of water-related equipment and water treatment and excludes companies that lag behind the theme universe in environmental, social and governance ("ESG") terms, based on an ESG rating.
The benchmark is based on a "best-in-class" approach, in other words, companies in the lower quartile per adjusted ESG rating of the sector are excluded from the theme universe. The best-in-class approach aims to favour the best-performing companies within a universe, sector or class. With this best-in-class filter, the Sub-fund follows a significantly engaging non-financial approach that allows it to reduce the size of the Investment Universe by at least 20% (in terms of the number of issuers).
The ESG rating methodology is based on key ESG issues including, but not limited to, water stress, carbon emissions, personnel management or business ethics.
For more information on the general and specific environmental, social and governance (ESG) objectives targeted by the Sub-fund, please refer to the Sub-fund's Transparency Code available on https://amundietf.com/.
The limitations of the benchmark methodology are described in the Fund's prospectus through risk factors such as market risk related to controversies and risks related to ESG methodologies and the calculation of the ESG score.
The ESG score of companies is calculated by an ESG rating agency using raw data, models and estimates collected and calculated using proprietary methods. Due to the lack of standardisation and the uniqueness of each methodology, the information provided may be incomplete.
Assessment of sustainability risks is complex and may be based on ESG data that is difficult to obtain, incomplete, estimated, outdated and/or materially inaccurate. Even when identified, there is no guarantee that this data will be correctly assessed.
Additional information on the MSCI indices is available on the MSCI website (www.msci.com).
The Fund aims to achieve its objective through a direct replication method, namely by investing primarily in the components of the Benchmark.
In order to optimise Benchmark replication, the Fund may use a sampling technique as well as guaranteed temporary sales of securities.
Any use of these techniques is indicated on the website amundietf.com.
The updated composition of the portfolio of securities held by the Fund is mentioned on the website amundietf.com.
Furthermore, the net asset value is shown on the Reuters and Bloomberg pages of the Fund and may also be shown on the websites of the Fund's stock exchanges.
Intended retail investors: This product is intended for investors with a basic knowledge and/or no or limited experience of investing in funds, who are seeking to increase the value of their investment and receive income over the recommended holding period and who are able to bear a loss of up to the full amount invested.
The product is not open to residents of the United States of America/"U.S. Person" (the definition of "U.S. Person" is available on the Management Company's website www.amundi.com and/or in the prospectus).

Redemption and transaction: The Sub-fund's shares are listed and traded on one or more stock exchanges. Under normal circumstances, you can trade shares during stock exchange trading hours. Only authorised participants (e.g. selected financial institutions) can trade shares directly with the Sub-fund on the primary market. Further details are provided in the MULTI UNITS FRANCE prospectus.

Distribution Policy: In accordance with the prospectus, income and capital gains from sales may be capitalised or distributed at the discretion of the SICAV.

What are the risks and what could I get in return?

RISK INDICATOR

1	2	3	**4**	5	6	7

Lowest risk — Highest risk

The risk indicator assumes you keep the product for five years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.
Beside the risks included in the risk indicator, other risks may affect the Sub-fund's performance. Please refer to the MULTI UNITS FRANCE prospectus.

PERFORMANCE SCENARIOS

What happens if Amundi Asset Management is unable to pay out?

The product is a co-ownership of financial instruments and deposits separate from the Management Company. In the event of default by the Management Company, the assets of the product held by the depositary will not be affected. In the event of default by the depositary, the risk of financial loss to the product is mitigated due to the legal segregation of the depositary's assets from those of the product.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 invested.

* Secondary market: as the Sub-fund is an ETF, investors who are not Authorised Participants will ordinarily only be able to buy or sell its shares on the secondary market. As a result, investors will pay brokerage charges and/or transaction charges on their transactions on the stock market. These brokerage charges and/or transaction charges are neither charged nor payable by the Sub-fund or the Management Company, but by the investor's own intermediary. Furthermore, investors may also incur bid-ask spreads, i.e. the difference between the price a share may be sold at (ask price) and the price it may be bought at (bid price).
Primary market: Authorised Participants who trade directly with the Sub-fund will pay the transaction costs applicable to its primary market.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years. This period is based on our assessment of the risk and reward characteristics and costs of the Sub-fund. This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

Order schedule: Information on the order frequency can be found under "What is this product?". ". Please refer to the section "What are the costs?" for more information on the exit costs. A redemption cap mechanism (known as a "gate") may be implemented by the Management Company. How it would be operated is described in the Prospectus.

In the primary market, the management company may:
- Suspend the redemption of shares, if exceptional circumstances so require, taking into account the interest of investors.
- Manage liquidity risks by (i) limiting the number of shares redeemed for a short period of time, if redemption requests reach a predefined threshold beyond which these requests can no longer be executed in the interest of all investors ("**Redemption Cap**"), and (ii) applying anti-dilution levies to the Sub-fund to offset or reduce portfolio restructuring costs for the remaining investors.

On the secondary market, investors will generally be able to sell their shares on the relevant stock exchange. Additional details can be found in the prospectus.

How can I complain?

If you have any complaints, you may:
- Mail Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France
- E-mail to complaints@amundi.com

In the case of a complaint you must clearly indicate your contact details (name, address, phone number or email address) and provide a brief explanation of your complaint. More information is available on our website www.amundi.fr.
If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
