and

- (2) Amundi S&P SmallCap 600 ESG UCITS ETF*, a sub-fund of Amundi ETF ICAV (the "**Receiving UCITS**"), an Irish UCITS established as an umbrella fund with segregated liability between its sub-funds under the Irish Collective Asset-management Vehicles Act 2015, having its registered office at One George's Quay Plaza, George's Quay, Dublin 2, Ireland, registered under the laws of Ireland with number C461194 (the "**Receiving Sub-Fund**");

A. Comparison between the Absorbed Sub-Fund and the Receiving Sub-Fund and impact on shareholders

The Absorbed Sub-Fund and the Receiving Sub-Fund both are compartments of undertakings for collective investment in transferable securities (UCITS) of Amundi. Although they are not domiciled in the same European jurisdiction and, therefore, are not supervised by the same regulatory authority, the Absorbed Sub-Fund and the Receiving Sub-Fund both are subject to EU harmonised UCITS legislation and offer similar investors protection. Also, the Receiving UCITS and the Luxembourg UCITS-SICAV Lyxor both exist under a form of public limited company qualifying as an investment company with variable capital and generally offer similar shareholders rights to their respective shareholders.

The Receiving Sub-Fund has been set-up for the purposes of the Merger. The Absorbed Sub-Fund and the Receiving Sub-Fund share similar key features, including target asset class(es) and geographical exposure, but differ in some respect notably in terms of management process and ESG (Environmental, Social and Governance) requirements. Although they do not seek to track the same index, both the Absorbed Sub-Fund and the Receiving Sub-Fund offer exposure to US SmallCap equity markets. The Receiving Sub-Fund discloses under Article 8 of the Sustainable Finance Disclosure Regulation (SFDR) and takes into account ESG criteria.

It should also be noted that the Receiving Sub-Fund has adopted the International Central Securities Depository ("ICSD") settlement structure for the settlement of trading in its shares. Under the ICSD settlement structure, the aggregate holdings of all investors will be evidenced by a global share certificate and the sole registered holder of all shares in the Receiving Sub-Fund will be a nominee of the common depository. Under the ICSD settlement structure, investors who are not participants in the ICSD will need to use a broker, nominee, custodian bank or other intermediary which is a participant in the ICSD settlement structure to trade and settle shares. The chain of beneficial ownership in the ICSD settlement structure may therefore be similar to existing nominee arrangements under the settlement model adopted by the Absorbed Sub-Fund.

Shareholders in the Absorbed Sub-Fund should benefit from better economies of scale in the long term and greater levels of operational efficiency, while getting exposure to the same target asset class(es).

Alternatively, however, corresponding forward contracts or total return swaps may also be entered into, with the same economic objective of aligning the performance of the Absorbed Sub-Fund's assets with that of the Index. The total exposure of the Absorbed Sub-Fund to total return swaps is not expected to exceed 100% of the net asset value. This threshold may be exceeded in certain circumstances.</p>	<p>With the exception of permitted investments in OTC option and swap financial derivative instruments and cash, the Receiving Sub-Fund's investments will be invested in equity and equity linked instruments which will be listed and traded on regulated markets.</p>

Appendix I to this notice provides additional information on the key similarities and differences between the Absorbed Sub-Fund and the Receiving Sub-Fund. Shareholders are also invited to carefully read the description of the Receiving Sub-Fund in its prospectus and relevant key investors information document (KIID), which will be available on the following website: www.amundiETF.com.

The Merger of the Absorbed Sub-Fund into the Receiving Sub-Fund may have tax consequences for certain shareholders. Shareholders should consult their professional advisers about the consequences of this Merger on their individual tax position.

B. Conversion to cash

Prior to the Merger Effective Date, all assets of the Absorbed Sub-Fund will be sold in order to only transfer cash to the Receiving Sub-Fund. Such operation will occur over the Absorbed Sub-Fund Freezing Period (as indicated in Appendix III), depending on the market conditions and in the best interest of the shareholders, and will end on the Merger Effective Date.

During such short period before the Merger, the Absorbed Sub-Fund may not be able to comply with its investment limits and investment objective. As a result, there is a risk that the performance of the Absorbed Sub-Fund may deviate from its expected performance for a short-term period before the Merger Effective Date.

The Absorbed Sub-Fund will bear any transaction costs associated with such operation as and when incurred. Shareholders who remain in the Absorbed Sub-Fund during this period will therefore be subject to such costs.

C. Terms and Conditions of the Merger

On the Merger Effective Date, all the assets and liabilities of the Absorbed Sub-Fund will be transferred to the Receiving Sub-Fund and shareholders of the Absorbed Sub-Fund who have not requested the redemption or the conversion of their shares in the Absorbed Sub-Fund in accordance with this paragraph C. will automatically receive registered shares of the relevant share class in the Receiving Sub-Fund. As from that date, such shareholders will acquire rights as shareholders of the Receiving Sub-Fund and will thus participate in any increase or decrease in the net asset value of the Receiving Sub-Fund.

As further described in Appendix II, a new share class in the Receiving Sub-Fund will be specifically activated on the Merger Effective Date to effect the exchange with the corresponding share class of the Absorbed Sub-Fund. Its net asset value on the Merger Effective Date will be set to be equal to the prevailing net asset value of the corresponding class of the Absorbed Sub-Fund. The exchange ratio as

of the Merger Effective Date will therefore be equal to 1 and shareholders will receive a share of the relevant share class of the Receiving Sub-Fund for each Absorbed Sub-Fund share of the relevant class exchanged.

Any accrued income in the Absorbed Sub-Fund will be included in the final net asset value of the Absorbed Sub-Fund and accounted for in the net asset value of the relevant share class of the Receiving Sub-Fund after the Merger Effective Date.

Appendix II to this notice provides a detailed comparison of the features of the share class of the Absorbed Sub-Fund and the corresponding share class of the Receiving Sub-Fund, which shareholders are invited to read carefully.

The cost of the Merger will be fully supported by the management company of the Receiving Sub-Fund.

In order to optimise the operational implementation of the Merger, no subscription, conversion and/or redemption orders relating to shares of the Absorbed Sub-Fund on the primary market will be accepted after the “**Cut-Off Point**” (as such term is defined in Appendix III). Orders received on the primary market after the Cut-Off Point will be rejected.

Shareholders who do not agree with the terms and conditions of this Merger or Shareholders who are unable to hold shares in the Receiving Sub-Fund on the Effective Date of the Merger because the Receiving Sub-Fund is not registered in Switzerland have the right to redeem or convert their shares at any time free of charges (excluding redemption fees charged by the Absorbed Sub-Fund to cover divestment fees and except for the fees acquired by the Absorbed Sub-Fund to prevent dilution of shareholders investment) within at least 30 calendar days from the date of this notice.

Nevertheless, for UCITS ETF share classes, placing an order on the secondary market will trigger costs over which the management company of the Absorbed Sub-Fund has no influence. Please note that shares that are purchased on the secondary market cannot generally be sold back directly to the Absorbed Sub-Fund. As a result, investors operating on the secondary market may incur intermediary and/or brokerage and/or transaction fees on their transactions, over which the management company of the Absorbed Sub-Fund has no influence. These investors will also trade at a price that reflects the existence of a bid-ask spread. Such investors are invited to contact their usual broker for further information on the brokerage fees that may apply to them and the bid-ask spreads they are likely to incur.

Such a redemption would be subject to the ordinary rules of taxation applicable to capital gains on the sale of transferable securities.

The Merger will be binding on all the shareholders of the Absorbed Sub-Fund who have not exercised their right to request the redemption or the conversion of their shares within the timeframe set out above. The Absorbed Sub-Fund will cease to exist on the Merger Effective Date and its shares will be cancelled.

D. Documentation

The following documents are at the disposal of shareholders for inspection and for copies free of charge during normal business hours at the registered office of the Absorbed Sub-Fund:

- the common terms of Merger;
- the latest prospectus and KIID of the Absorbed Sub-Fund and the Receiving Sub-Fund;
