The objective of this Sub-Fund is to track the performance of the EURO STOXX Select Dividend 30 (Net Return) EUR Index (the "Index"), and to minimize the tracking error between the net asset value of the Sub-Fund and the performance of the Index. The Sub-Fund aims to achieve a level of tracking error that will not normally exceed 1%.

Risk Indicator (Source : Fund Admin)

Lower Risk

Higher Risk

The SRI represents the risk and return profile as presented in the Key Information Document (KID). The lowest category does not imply that there is no risk. The SRI is not guaranteed and may change over time. The risk indicator assumes you keep the product for 5 years. The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

Any losses or gains do not take into consideration any costs, commissions and fees incurred by the investor in the issue and buyout of the shares (e.g. taxes, brokerage fees or other commissions deducted by the financial intermediary). If performance is calculated in a currency other than the euro, any losses or gains generated can thereby be affected by exchange rate fluctuations (both upward and downward). The discrepancy accounts for the performance difference between the portfolio and the index.

Description of the Index

The Index is an equity index representative of the highest-yielding stocks relative to their home market within the Eurozone countries. The Index universe comprises all companies in the EURO STOXX Index that, inter alia, pay a dividend and show a non-negative historical dividend growth per share for the 5-year period as well as a non-negative pay-out ratio (ratio of the dividend to the profit per share) of no more than 60%. The EURO STOXX Index consists of the largest stocks of selected Eurozone countries and is part of the STOXX 600 Index. Components in the Index are weighted by their indicated annual net dividend yield.
