

KEY INFORMATION FOR THE INVESTOR

The French version of this document, the official Swiss version approved by the Swiss Financial Market Supervisory Authority (FINMA), shall, in any circumstance, take precedence over this simple English translation. Considered a commercial document, the English translation must be provided to the investor together with the corresponding official Swiss French version. This document provides information that is essential for investors in this Fund. The information provided will help you understand the nature and the risks of investing in this fund. You are advised to read this document so that you can make an informed decision about whether to invest.

Lyxor EURO STOXX 50 Daily (-2x) Inverse UCITS ETF - Acc (the "Fund")

ISIN: FR0010424143 - Sub-fund of the MULTI UNITS FRANCE investment company (the "Company") domiciled in France.

Managed by Lyxor International Asset Management S.A.S. ("LIAM")

Investment objectives and policies

The Fund's objective is to be inversely exposed, and with daily 2x leverage, the daily performance of the eurozone equity markets, by replicating, both upwards and downwards, the performance of the Euro Stoxx 50 Daily Double Short Index (gross dividends reinvested), (the "Benchmark"), denominated in euro (EUR), which represents the 50 leading companies of the eurozone, short 2x leveraged to the EURO STOXX 50 (the "Parent Index"), the main market index with daily rebalancing, while minimising the tracking error between the Fund's performance and that of the Benchmark as much as possible.

The anticipated level of tracking error under normal market conditions is indicated in the Fund's prospectus.

Over a period of one trading day, any increase in the Parent Index will lead to an even bigger decrease in the net asset value of the Fund.

Over a period longer than one trading day, however, the Fund's performance will differ by double the inverse of the Parent Index's performance and could even go in the same direction.

The Fund intends to achieve its objective via direct replication, that is, by investing primarily in Benchmark Index components.

The Fund may use a sampling technique to optimize Benchmark Index replication, temporary guaranteed security transfers. Any use of these techniques is indicated at www.lyxoretf.com. The current composition of the securities portfolio held by the Fund is available at www.lyxoretf.com.

The net asset value is also indicated on the Reuters and Bloomberg pages of the Fund and may also be stated on the websites of stock markets where the Fund is listed.

The share currency is the Euro (EUR).

- **Financial instruments invested in:** forwards, international equities.
- **Recommended Investment Period:** as this is an arbitrage product, this Fund may not be suitable for investors wishing to make a medium or long-term investment.
- **Dividends policy:** the Fund's distributable funds shall be distributed to unit-holders and/or capitalised.
- **Net asset value:** daily providing the relevant stock markets are open and orders can be covered.
- **Redemptions:** investors may redeem their equities on the primary market each valuation day before 5:00 p.m. CET and sell their equities on the secondary market at any time during the opening hours of the markets where the Fund is listed.

Risk and return profile

The risk and return category given above is based on the historical performance of the Fund's component assets or the performance of its benchmark index or the simulated performance of a portfolio model. As such, this risk estimation cannot be a reliable indicator of future risk, and it could change over time. The lowest category does not mean a risk-free investment. The Fund has been classified in category 7. The Fund has been classified as category 7 given its exposure to the Benchmark Index. Category 7 indicates that it is possible to suffer a very large or even complete capital loss, suddenly under normal market conditions, as the value of your investment could fluctuate very strongly and quickly both upward and downward each day.

The significant risks for the UCITS not taken into account in the above-mentioned indicator and which could result in a decrease in the Fund's net asset value and which the Fund is authorised to include in this document (see the Risk Profile section of the prospectus for more information concerning the risks):

- **Counterparty risk:** The Fund is exposed to insolvency risk or any other type of default of any counterparty with which it enters into an agreement or transaction, particularly in the case of OTC futures or temporary sales of securities. Such an event could result in a significant decrease in the Fund's net asset value. In accordance with the regulations applicable to the Fund, this risk may not exceed 10% of the Fund's total assets for a specific counterparty.
- **Risk associated with the use of derivative instruments:** The Fund may use financial contracts that entail various types of risks, including but not limited to leverage, high volatility, valuation, or liquidity risks.

Costs

The fees you pay cover the Fund's management costs, including promotion and distribution costs. These fees are deducted from the potential performance of your investment. For more information concerning costs, please refer to the Costs section of the Fund's prospectus, which is available at www.lyxoretf.com.

One-off fees deducted before or after investment	
Entry fees only applicable on the primary market:	at the most, the higher of (i) €50,000 per subscription request and (ii) 5% of the net asset value per share multiplied by the number of shares subscribed.
Exit fees only applicable on the primary market:	at the most, the higher of (i) €50,000 per redemption request and (ii) 5% of the net asset value per share multiplied by the number of shares redeemed.
On the primary market, the percentage given is the maximum that could be drawn on your capital before it is invested or before the income on your investment is distributed to you. In some cases the investor might pay less. The investor can ask his or her financial adviser or distributor for the exact amount of the entry and exit charges. When investing through a stock exchange where the Fund is listed, no entry/exit fees apply, but potential brokerage commissions may apply.	
Fees deducted by the Fund over one year.	
Ongoing fees:	0.60%.
This percentage is calculated based on the expenditures incurred for the financial year ended in October 2018 (including all taxes, where applicable) and may vary from one year to another. It does not include performance commissions or transaction fees, except in the case of entry and/or exit fees, paid by the Fund when it buys or sells units or shares of another collective management vehicle.	
Fees deducted by the Fund under certain circumstances	
Performance commission:	None.

Past performances

Past performance is not a reliable indicator of future performance. Performance is shown in euro (EUR), after deduction of ongoing charges. The Fund was created on 3 April 2007.

ANNUAL PERFORMANCE OF Lyxor EURO STOXX 50 Daily (-2x) Inverse UCITS ETF - Acc (in %)

(*) Until 06/09/2018, the performance of the Fund indicated corresponds to that of the Fund - Lyxor EURO STOXX 50 Daily (-2x) Inverse UCITS ETF (the Absorbed Fund). The latter was absorbed by the Fund on 06/09/2018.

When the Benchmark Index is denominated in a currency other than that of the Fund, the performance of the Benchmark Index is first converted into the Fund's currency for the sake of clarity and comparison. For this purpose, a foreign exchange transaction (at the WM Reuters rate at 5 pm on the day in question) is applied daily to the value of the Benchmark Index.
