## What is this product?

**Type:** Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The investment objective the Sub-Fund is to track both the upward and the downward evolution of the MSCI World Select Catholic Principles Universal Index (the "**Benchmark Index**") denominated in USD, while minimizing the volatility of the difference between the return of the Sub-Fund and the return of the Benchmark Index (the "**Tracking Error**").

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Benchmark Index is an equity index calculated and published by the international index provider MSCI, which features the following characteristics:

1. Same investment universe of securities as the MSCI World Index (The "**Parent Index**"),
2. Exclusion of companies with an MSCI ESG Rating strictly below "BB", involved in controversial businesses, and with a very serious ESG controversy,
3. Exclusion of companies that are involved in Stem Cells, Abortions and Contraceptives and Animal Welfare,
4. Exclusions of Top 20% securities by carbon emission intensity and reduction of potential carbon emissions from fossil fuel reserves by 50%,
5. Weighting by the product of companies' free-float market cap weights in the Parent Index and a Combined ESG Score reflecting an assessment of both the current ESG profile as well as the trend in that profile.

The Sub-Fund promotes environmental and/or social characteristics through among others, replicating an Index integrating an environmental, social and governance ("ESG") rating.

The Index methodology is constructed using a "Best-in-class approach": best ranked companies are selected to construct the Index. "Best-in-class" is an approach where leading or best-performing investments are selected within a universe, industry sector or class. It excludes companies falling behind on an ESG level, particularly based on ESG ratings. Using such Best-in-class approach, the Index follows an extra-financial approach significantly engaging that permits the reduction by at least 20% of the initial investment universe (expressed in number of issuers).

The ESG key issues include for instance, but are not limited to, water stress, carbon emissions, labor management or business ethics.

The prospectus describes limitations of the methodology of the Benchmark Index through risk factors such as risk related to the carbon data used in methodology of the Benchmark Index or lack of reactivity to ESG fundamentals changing circumstances, or Extra Financial risks related to the components of the Benchmark Index.

MSCI's website (<https://us.spindices.com/>) contains more detailed information about the MSCI indexes.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the Index constituents on the basis that any dividends or distributions are included in the Index returns after withholding tax retention.

The Sub-Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index. To optimize the Benchmark Index replication, the Sub-Fund may use a sampling replication strategy. The potential use of this technique is published on the Amundi website: [www.amundiETF.com](http://www.amundiETF.com).

Updated composition of the Sub-Fund holdings is available on [www.amundiETF.com](http://www.amundiETF.com).

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Sub-Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

**Redemption and Dealing:** The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

**Distribution policy:** As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.
