What is this product?

Type: Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, an Undertaking for Collective Investments in Transferable Securities (UCITS), established as a SICAV.

Term: The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

Objectives: The Fund is an index-tracking UCITS passively managed.

The investment objective of the Fund is to track both the upward and the downward evolution of MSCI China ESG Selection P-Series Extra Net Total Return Index (the "Index") denominated in US Dollars, while minimizing the volatility of the difference between the return of the Fund and the return of the Benchmark Index (the "Tracking Error").

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

The Index is representative of the performance of large and mid-cap stocks, across the Chinese economy, issued by companies with robust Environmental, Social and Governance (ESG) ratings relative to their sector peers and/or which experienced a yearly improvement in these ESG ratings. Companies whose products or activities have negative social or environmental impacts are excluded from the Index.

The Index methodology is constructed using a "Best-in-class approach": best ranked companies are selected to construct the Index. "Best-in-class" is an approach where leading or best-performing investments are selected within a universe, industry sector or class. It excludes companies falling behind on an ESG level, particularly on the basis of ESG ratings. Using such Best-in-class approach, the Index follows an extra-financial approach significantly engaging that permits the reduction by at least 20% of the initial investment universe (expressed in number of issuers). The ESG rating methodology is based on ESG key issues including but not limited to water stress, carbon emissions, labor management or business ethics.

Limits of the methodology of the Index are described in the prospectus of the Fund through risk factors, such as the market risk linked to controversies and the risks linked to ESG methodologies and to ESG score computation. The ESG score of companies is calculated by an ESG rating agency, using raw data, models and estimates collected/calculated using methods specific to each provider. Due to the lack of standardisation and the uniqueness of each methodology, the information provided may be incomplete.

Assessment of sustainability risks is complex and may be based on ESG data which is difficult to obtain, incomplete, estimated, out of date and/or otherwise materially inaccurate. Even when identified, there can be no guarantee that these data will be correctly assessed.

The Index applies exclusions to companies involved in activities considered non-aligned with the Paris Climate Agreement (coal extraction, oil, etc.). For further information on the exclusions applied by the Index pursuant to the EU Paris-aligned Benchmarks (PAB), please refer to the "Guidelines on funds' names using ESG or sustainability-related terms" section of the Prospectus.

Investors' attention is drawn to the specific risks related to investing in the People's Republic of China (PRC) as described in greater detail in the Risk Profiles section of the Prospectus.

MSCI's website (www.msci.com) contains more detailed information about the MSCI indexes.

The Index is a net total return index. A net total return index calculates the performance of the Index constituents on the basis that any dividends or distributions are reinvested net of any withholding tax applicable.

The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Index. To optimize the Index replication, the Fund may use a sampling replication strategy.

Updated composition of the Fund holdings is available on www.amundi.lu.

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

Intended Retail Investor: This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to increase the value of their investment over the recommended holding period with the ability to bear losses up to the amount invested.

Redemption and Dealing: The Sub-Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, you may deal in shares during the trading hours of the stock exchanges. Only authorised participants (e.g., selected financial institutions) may deal in shares directly with the Sub-Fund on the primary market. Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

Distribution policy: As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

More Information: You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Luxembourg S.A. at 5, allée Scheffer 2520 Luxembourg, Luxembourg.

* Secondary Market: because the Sub-Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Sub-Fund nor the Management Company but to the investor own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years is based on our assessment of the risk and reward characteristics and costs of the Sub-Fund.

This product is designed for medium-term investment; you should be prepared to stay invested for at least 5 years. You can redeem your investment at any time, or hold the investment longer.

Order Schedule: Details of dealing frequency can be found under "What is this product?". Please see the "What are the costs?" section for details of any exit fees.

On the Primary Market the Company may:

- Suspend the redemption of shares, if exceptional circumstances so require, considering the interests of investors.
- Manage liquidity risks, by (i) limiting how many shares are redeemed in a short amount of time if redemption requests reach a predefined threshold beyond which such requests can no longer be executed in the best interests of all investors ("Gates"), and (ii) applying anti-dilution tools (anti-dilution levy or partial or full swing pricing) to mitigate material dilution for remaining investors.

On the Secondary Market, investors will generally be able to sell their shares on the relevant stock exchange. Further details can be found in the Prospectus.
